

Brodie Dental, LLC

Consent for Treatment During Post-COVID Closures

Thank you for your trust in our practice. As with the transmission of any communicable disease like a cold or the flu, you may be exposed to COVID-19 at any time or in any place. Be assured that we have always followed state and federal regulations and recommended Standard/Universal Precautions and Disinfection/Infection Control protocols to limit transmission of diseases and pathogens in our office and we continue to do so.

Despite our careful attention to sterilization, disinfection, and use of personal barriers, risks still exist just as you might experience at your gym, grocery store, or banking institution. “Social Distancing” nation-wide has reduced the transmission of the Coronavirus. Although we have taken measures to provide social distancing in our practice, due to the nature of dentistry, it is not possible to maintain social distancing between the patient, team members, and doctor as well as other patients at all times.

Although exposure is unlikely, proceeding with your visit and signing below acknowledges you accept these risks and consent to treatment.
